Report Name	Description
Tally Reports of Any Given Term	Provides summary Section Registration, such as the number of registered students in the section, as well as Meeting, Co-requisite, and Prerequisite information for the sections in the specified Academic Period.
Students With Permits	Generates an Excel spreadsheet that lists each Course for the specified Academic Period, the Registration over-rides permitted and the user authorizing it, the nature of the over-ride, the primary instructor, the associated student, and whether or not the student is registered for the course.
Faculty Advisor	Provides a list of faculty members for the specified Academic Period. It can be further limited by other 'filtering' characteristics if so desired.

Registration Report Notes:

Report data is refreshed overnight daily.

Best performance will be achieved if you take maximum advantage of available filters.

GPA is still in process of being evaluated, and is not available in any reports at this time.

As a reminder, the Family Educational Rights and Privacy Act (FERPA) requires that student record information be used only for "legitimate educational interest" and not be dispersed to any third party outside of Montclair State University.

If your departmental needs necessitate running and sending a student data report, please use FILE HAWK for the transmittal method.
